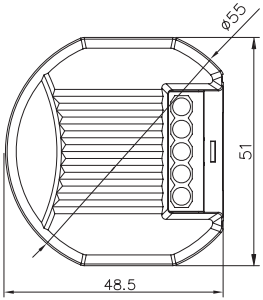
DALI TRAILING EDGE DIMMER HDD2200

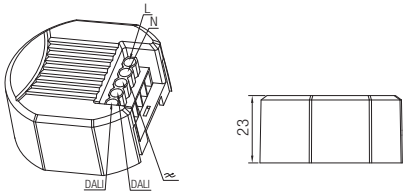
Installation and Instruction Manual

For use in upgrade retrofit of trailing edge phase dimming controls, this dimmer will convert DALI control signals to the trailing edge drivers or transformers.

1. Product description

- Trailing edge dimmer
- Input: DALI, L, N
- Installation in box 60mm or stand alone installation
- Over-heat protection
- Over-load protection



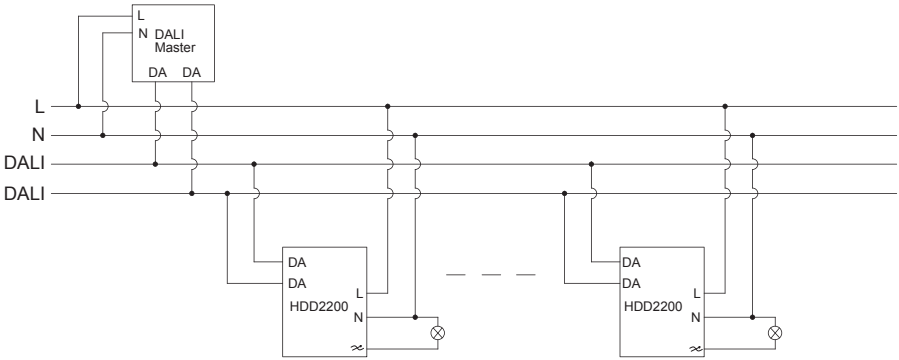


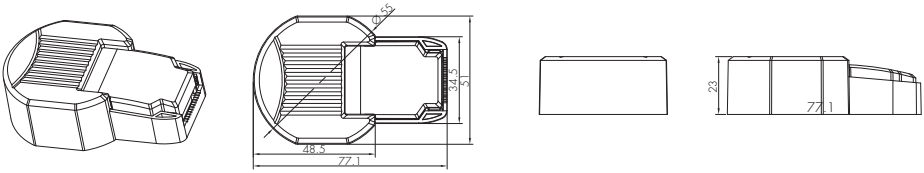
Dimensions(mm)

2. Technical Specifications

Product type :	DALI trailing edge dimmer
Operating voltage:	230/240VAC 50Hz
Rated load:	200W
Power consumption:	≤ 0.5W
DALI power:	2mA
Operating temperature:	-20°C ~+50°C
Safety Standard:	EN60669-1, EN60669-2-1
DALI standard:	EN62386-101; 102; 205

3. Wiring Diagram





Optional Accessory : Strain-relief clip
